BEST PRACTICE I Mentoring Systems Objective:

The objective of Mentoring is: To achieve the vision of the institution viz., to develop into a truly Global citizen. To provide a continuous learning process for both the mentor and the mentee. To establish the mentor as a role model and to support the mentee for personal and academic development. To establish a vibrant relationship between the teachers and the students that will ensure responsibility of academics discipline Procedures to be followed. Mentoring session is conducted every Saturday on a regular basis? The session is compulsory for every students' to attend without fail. Mentors are assigned some students for the whole duration of a semester each i.e. six months. The mentoring parameters are based on four aspects i.e. academic, attendance, career and general. The mentors are provided with details of mentee's performances in terms of academic (weekly test, class test, mid-term and end-semester exam) and attendance records. The mentor also keeps track of the mentee's personal development such as co-curricular activities, discipline and career related issues. All Faculty members of Nehru College of Management play the role of a mentor with the motto of guiding the students' in the direction of career path, emotional and motivational support. Faculty Members help the students in setting goals, developing contacts, identifying resources and exploring hidden talents. The Faculty role as a mentor changes as the needs of the mentee changes. Every year mentoring team is formed and the mentoring process is reviewed in the Faculty Meeting. Every week one hour is allotted for mentoring, where students are hand held by faculty to set goals and achieve it. Record for each student is maintained by the respective mentor to have a consistent follow-up on student's performance on various dimensions. Mentoring is done for the Employment and career guidance to the students. Based on the students' feedback, the mentors concerned will incorporate new methodologies in teaching - learning process as well in Research and Development activities.

BEST PRACTICE II Use of Social Media as Teaching Learning method Objectives:

Use of Social Media as Teaching Learning method is to encourage the development of transferable, technical, and social skills (TTS) of value in formal and informal learning. □ To promote participatory culture among students - space that allows engagement, sharing, mentoring, and an opportunity for social interaction. □ To discuss / share curriculum-related content and enhance the prescribed curriculum for students. □ To emphasize specialized in communication. To improve student comprehension □ To enhance student networking and collaboration with other nurture globally. □ To use the advanced technology in the teaching learning process. To make the teaching learning process more interesting. □ To get feedback from the students □ To post assignments, questions, readings, and grades as well as ways to interact with the students through forums or chats. □ To provide a virtual "space" for learners. The Context: Students are changing, and those once effective teaching methods are becoming stale. Faculty, and campus administrators, can utilize social media as a tool for creating new ways to engage students and demonstrates to them a variety of uses for the internet and their favorite sites. One of the biggest challenges in online education is the lack of interaction between students whereas this blogs try to provide more opportunities for discussion and communication. By this we meet the twin objective of Using ICT in day to day Class rooms and exposing students to new age Technology.
